BRYAN PRAISES WOMAN SUFFRAGE

CHAUTAUOUA LECTURER AT SKID. MORE WARMLY WELCOMED.

PAYS HIGH TRIBUTE TO PRESIDENT WILSON

Says He is Greatest U. S. Executive Since Time of Lincoln-Left Skidmore This Morning.

The Hon. William Jennings Bryan principal speaker of yesterday's Chau banner attraction of the White-Meyer System, arrived in Skidmore at 6:25 'clock yesterday evening. He was met by a delegation of Skidmore citizens and proceeded to the Commercial Hotel where he was entertained at dinner by A. L. Oakerson and W. S. Linville. Dr E. S. Fox was also a guest. Mr. Bryan spent the night at the home of Mr. and Mrs. William Howden.

Mr. Bryan gave his chautauqua lec ture entitled, "Four Pictures" before a large and enthusiastic audience. He divided his two-hour speech into four parts, the suffrage question, the temperance situation, the war and a summing up of questions.

PANES OF POSTAGE STAMPS

the Plate Numbers, Letters or Symbols They Carry.

All our postage stamps are printed In large sheets of 400 stamps each These are then cut into four "panes of 100 stamps each and sent to the various postoffices in that shape.

If you were to go to any United States postoffice and buy a complete "sheet," or, more correctly speaking, a complete "pane," of 100 stamps you would find that it had on two sides an outer margin, and on each of thes margins would be a number. This is the number of the plate from which that pane was printed. Under this number the authorities keep a record of the plate, the date of its making on what days it was in use, the quar tities of stamps printed from it and all such data.

These plate numbers are usually ex pressed in figures or letters or combi nations of both, but sometimes other symbols are used, such as the "star" plates of recent date. Many stamp lovers form what are called "plate number collections"-that is, a collection in which every stamp still has attached to it the outer margin bearing the plate number. The object is, of course, to get every plate number that

It is interesting and curious, too, be cause the stamps are arranged with the plate numbers in sequence, making them look very different from an ordinary collection. For instance, plate No. 253 is a five cent postage stamp, while the next three, 254, 255 and 2 a special delivery, and 258 a newspasequence is very varied and interest

And, again, many of the plates were in use at a time when the color of the stamp was changed, and the same plate number may be found upon both colors, as the one cent blue and the one cent green, or the ten cent green and the ten cent brown, the fifteen cent blue and the fifteen cent olive. Such a collection shows a wide range a collector.—St. Nicholas.

Heady With His Tongue.

James T. Brady, a prominent mem ber of the New York bar in the last century, was noted for his ready wit. Quick as Mr. Brady was with the readiness of his race for repartee, he sometimes met his match among his own countrymen. He was once exam ining an unwilling witness who persistently called him Mr. O'Brady. At length, even his proverbial good nature being a little ruffled, he said to the witness: "You need not call me Mr. O'Brady, I've mended my name since I came here and dropped the O.' "Have ye, now?" retorted the witness. "'Pon my word, it's a pity ye didn' mend yer manners at the same time!"
